

## PELLETS

| Sr. No. | PRODUCT NAME                                 | LABEL CLAIM                                                                                                                                                | PACKING DETAILS | INDICATIONS                                                                      |
|---------|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|----------------------------------------------------------------------------------|
| 1       | Lansoprazole EC Pellets 20 % w/w             | Each 100 mg pellets contains:<br>Lansoprazole USP ..... 20 mg<br>Excipients ..... q.s.                                                                     | HDPE Drum       | Antacid, Proton Pump inhibitor, Gastro-Oesophageal reflux disease (GORD)         |
| 2       | Lansoprazole Delayed Release Pellets 15 %    | Each 100 mg pellets contains:<br>Lansoprazole USP ..... 15 mg<br>(In delayed release form)<br>Excipients ..... q.s.                                        | HDPE Drum       | Antacid, Proton Pump inhibitor, Gastro-Oesophageal reflux disease (GORD)         |
| 3       | Lansoprazole Delayed Release Pellets 8.5 %   | Each 100 mg pellets contains:<br>Lansoprazole USP ..... 8.5 mg<br>(In delayed release form)<br>Excipients ..... q.s.                                       | HDPE Drum       | Antacid, Proton Pump inhibitor, Gastro-Oesophageal reflux disease (GORD)         |
| 4       | Clarithromycin Taste Mask Granules 27.5 %    | Each 100 mg taste mask granules contains:<br>Clarithromycin USP ..... 27.5 mg<br>Excipients ..... q.s.                                                     | HDPE Drum       | Macrolide Antibiotics                                                            |
| 5       | Esomeprazole Magnesium EC Pellets 22.5 % w/w | Each 100 mg pellets contains:<br>Esomeprazole magnesium USP 22.5 mg<br>Excipients ..... q.s.                                                               | HDPE Drum       | Gastro-Oesophageal Reflux Disease (GORD), Antacid, In Zollinger Ellison Syndrome |
| 6       | Esomeprazole Enteric Coated Pellets 15 %     | Each 100 mg pellets contains:<br>Esomeprazole magnesium trihydrate USP eq. to Esomeprazole ... 15 mg<br>(In Enteric Coated Form)<br>Excipients ..... q.s.  | HDPE Drum       | Gastro-Oesophageal Reflux Disease (GORD), Antacid, In Zollinger Ellison Syndrome |
| 7       | Esomeprazole Enteric Coated Pellets 8.5 %    | Each 100 mg pellets contains:<br>Esomeprazole magnesium trihydrate USP eq. to Esomeprazole ... 8.5 mg<br>(In Enteric Coated Form)<br>Excipients ..... q.s. | HDPE Drum       | Gastro-Oesophageal Reflux Disease (GORD), Antacid, In Zollinger Ellison Syndrome |
| 8       | Omeprazole EC Pellets 8.5 % w/w              | Each 100 mg pellets contains:<br>Omeprazole BP ..... 8.5 mg<br>Excipients ..... q.s.                                                                       | HDPE Drum       | Antacid, Gastro-Oesophageal reflux disease (GORD)                                |
| 9       | Omeprazole Delayed Release Pellets 11 %      | Each 100 mg pellets contains:<br>Omeprazole USP ..... 11 mg<br>(In delayed release form)<br>Excipients ..... q.s.                                          | HDPE Drum       | Antacid, Gastro-Oesophageal reflux disease (GORD)                                |

| Sr. No. | PRODUCT NAME                                         | LABEL CLAIM                                                                                                                                                      | PACKING DETAILS | INDICATIONS                                                                                   |
|---------|------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|-----------------------------------------------------------------------------------------------|
| 10      | Omeprazole Delayed Release Pellets 20 %              | Each 100 mg pellets contains:<br>Omeprazole USP ..... 20 mg<br>(In delayed release form)<br>Excipients ..... q.s.                                                | HDPE Drum       | Antacid, Gastro-Oesophageal reflux disease (GORD)                                             |
| 11      | Omeprazole Enteric Coated Pellets 10 %               | Each 100 mg pellets contains:<br>Omeprazole Magnesium BP<br>Eq. to Omeprazole ..... 10 mg<br>(In enteric coated form)<br>Excipients ..... q.s.                   | HDPE Drum       | Antacid, Gastro-Oesophageal reflux disease (GORD)                                             |
| 12      | Omeprazole Enteric Coated Pellets 11 %               | Each 100 mg pellets contains:<br>Omeprazole Magnesium BP<br>Eq. to Omeprazole ..... 11 mg<br>(In enteric coated form)<br>Excipients ..... q.s.                   | HDPE Drum       | Antacid, Gastro-Oesophageal reflux disease (GORD)                                             |
| 13      | Omeprazole Enteric Coated Pellets 20 %               | Each 100 mg pellets contains:<br>Omeprazole Magnesium BP<br>Eq. to Omeprazole ..... 20 mg<br>(In enteric coated form)<br>Excipients ..... q.s.                   | HDPE Drum       | Antacid, Gastro-Oesophageal reflux disease (GORD)                                             |
| 14      | Omeprazole Enteric Coated Pellets 8.5 %              | Each 100 mg pellets contains:<br>Omeprazole Magnesium BP<br>Eq. to Omeprazole ..... 8.5 mg<br>(In enteric coated form)<br>Excipients ..... q.s.                  | HDPE Drum       | Antacid, Gastro-Oesophageal reflux disease (GORD)                                             |
| 15      | Amlodipine Pellets 5 %                               | Each 100 mg pellets contains:<br>Amlodipine Besylate USP<br>Eq. to Amlodipine ..... 5 mg<br>(In immediate release form)<br>Excipients ..... q.s.                 | HDPE Drum       | Antihypertensive                                                                              |
| 16      | Dabigatran Etexilate Pellets 35 %                    | Each 100 mg pellets contains:<br>Dabigatran Etexilate Mesylate<br>Eq to Dabigatran Etexilate ..... 35 mg<br>(In immediate release form)<br>Excipients ..... q.s. | HDPE Drum       | Anticoagulant                                                                                 |
| 17      | Dexlansoprazole Delayed Release Pellets 20 %         | Each 100 mg pellets contains:<br>Dexlansoprazole ..... 20 mg<br>(In delayed release form)<br>Excipients ..... q.s.                                               | HDPE Drum       | Antacid, Proton Pump inhibitor, Gastro-Oesophageal reflux disease (GORD)                      |
| 18      | Dimethyl Fumarate Delayed Release Microgranules 50 % | Each 100 mg microgranules contains:<br>Dimethyl Fumarate ..... 50 mg<br>(In delayed release form)<br>Excipients ..... q.s.                                       | HDPE Drum       | To treat relapsing forms of multiple sclerosis                                                |
| 19      | Duloxetine Delayed Release Pellets 20 %              | Each 100 mg pellets contains:<br>Duloxetine Hydrochloride USP<br>Eq. to Duloxetine ..... 20 mg<br>(In delayed release form)<br>Excipients ..... q.s.             | HDPE Drum       | In major depressive disorder, generalized anxiety disorder, fibromyalgia and neuropathic pain |

| Sr. No. | PRODUCT NAME                                     | LABEL CLAIM                                                                                                                                                     | PACKING DETAILS | INDICATIONS                                                              |
|---------|--------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|--------------------------------------------------------------------------|
| 20      | Fenofibrate Pellets 50 %                         | Each 100 mg pellets contains:<br>Fenofibrate USP ..... 50 mg<br>(In immediate release form)<br>Excipients ..... q.s.                                            | HDPE Drum       | In Hyper-cholesterolemia or mixed dyslipidemia                           |
| 21      | Fenofibrate Pellets 66 %                         | Each 100 mg pellets contains:<br>Fenofibrate USP ..... 66 mg<br>(In immediate release form)<br>Excipients ..... q.s.                                            | HDPE Drum       | In Hyper-cholesterolemia or mixed dyslipidemia                           |
| 22      | Ketoprofen Extended Release Pellets 60 %         | Each 100 mg pellets contains:<br>Ketoprofen USP ..... 60 mg<br>(In extended release form)<br>Excipients ..... q.s.                                              | HDPE Drum       | Analgesic & Anti-inflammatory                                            |
| 23      | Nifedipine Sustained Release Pellets 17 %        | Each 100 mg pellets contains:<br>Nifedipine USP ..... 17 mg<br>(In sustained release form)<br>Excipients ..... q.s.                                             | HDPE Drum       | Antianginal Drug<br>(Used in angina pectoris)                            |
| 24      | Nitrofurantoin Pellets 35 %                      | Each 100 mg pellets contains:<br>Nitrofurantoin USP ..... 35 mg<br>(In sustained release form)<br>Excipients ..... q.s.                                         | HDPE Drum       | Macrolide Antibiotics, Used in Urinary tract infection                   |
| 25      | Orlistat Pellets 50 %                            | Each 100 mg pellets contains:<br>Orlistat USP ..... 50 mg<br>(In immediate release form)<br>Excipients ..... q.s.                                               | HDPE Drum       | In obesity                                                               |
| 26      | Pantoprazole Sodium Delayed Release Pellets 15 % | Each 100 mg pellets contains:<br>Pantoprazole Sodium Sesquihydrate<br>USP eq. to Pantoprazole ..... 15 mg<br>(In delayed release form)<br>Excipients ..... q.s. | HDPE Drum       | Antacid, Proton Pump inhibitor, Gastro-Oesophageal reflux disease (GORD) |
| 27      | Tamsulosin Hydrochloride Pellets 0.16 %          | Each 100 mg pellets contains:<br>Tamsulosin HCl USP ..... 0.16 mg<br>(In sustained release form)<br>Excipients ..... q.s.                                       | HDPE Drum       | Benign Prostatic Hyperplasia (BPH)                                       |
| 28      | Tamsulosin Hydrochloride Pellets 0.2 %           | Each 100 mg pellets contains:<br>Tamsulosin HCl USP ..... 0.2 mg<br>(In sustained release form)<br>Excipients ..... q.s.                                        | HDPE Drum       | Benign Prostatic Hyperplasia (BPH)                                       |
| 29      | Theophylline Extended Release Pellets 80 %       | Each 100 mg pellets contains:<br>Theophylline (Anhydrous) USP 80 mg<br>(In extended release form)<br>Excipients ..... q.s.                                      | HDPE Drum       | In Chronic obstructive pulmonary disease (COPD) and Asthma               |
